Vol. XXXIV. UKIAH, MENDOCINO COUNTY, CALIFORNIA, AUGUST 6, 1909. Number 7

PROFESSOR BABCOCK PROTECTS TEACHERS

School Superintendent Babcock received the following letter this week from the Garden City Teachers' agency offering him a $5 "fee" for sending them orders for teachers. The appended letter from Mr Babcock to the agency will show about how he felt when he answered it. The professor is one of those fellows who believes in a square deal and was the main man in putting the other teachers agencies out of business.

These teachers agencies have done more damage to the schools of the country than any other one thing by promoting a spirit of unrest among the teachers. Not only that but if the agency can afford to pay a fee of $5 the teacher must be held up for considerable more. School Superintendent Babcock is taking the right stand in this matter and should be backed up by the school trustees and school superintendents of the state. It is evident that the "agency" did not know Professor Babcock or it would never have made such a proposition to him. The following are the letters:

L W Babcock, Ukiah, Calif. Dear Sir:—Are you in need of any teachers in your county, especially commercial teachers? We have quite a number of first-class teachers on our waiting list and are prepared to fill most any kind of a vacancy.

As it is to our advantage to place as many competent teachers as possible, we will offer you $5.00, to be paid out of the commission collected from each teacher we locate in positions named by you.

In giving information be particular to state the kind of position, the time at which the teacher would be expected to begin, and especially the name and address of the person to whom application should be made. Thanking you for this information, we are, Yours respectfully, Garden City T. Agency.

P S We recommend none but responsible, competent teachers, being most careful in the selection.

Garden City Teachers' Agency, San Jose, Cal. Gentlemen:—Your favor of July 31st wherein you say "Are you in need of any teachers in your county ..... we will offer you $5.00, to be paid out of the commission collected from each teacher we locate in positions named by you" is at hand.

No sir, we are not in need of any teachers and, if we were, we would not turn any of the vacancies to be filled over to you or your organization.

We don't believe in blood money and we don't believe in robbing the schools of their just rights. Every school is entitled to the best teacher that can be had for the money; but, when the money furnished by the state for the education of her children, has to be diverted from its proper channels to support a band of parasites and educational highbinders, it is then time for the state to take a hand and organize a State Educational Bureau for the mutual benefit of teachers and schools and sweep your organization and all like it into the depths of the Pacific.

No sir, you can not send any teachers to me nor to this county if I can prevent it. L W Babcock.

FIRE COMPANY IS ALL RIGHT

Frank Albertson is still praising the fire company for the splendid work they did in saving the adjoining buildings to the Hager and Held buildings. The next building to the fire was insured in one of Frank's companies and the damage figured out to just $23. Now who says the fire company does not do good work. Needless to say that Frank settled the loss immediately.

REV EWING PASSES AWAY

J W Eversole reports that he received word this week that Rev L Ewing died at his home in Sebastopol last Friday morning. Rev Ewing was a resident of this city for a number of years and had charge of the Methodist Indian missions in this and Lake counties. He left his charge here about three years ago. The deceased was a grand army veteran.

COUNTY FATHERS GO HUNTING DEER

Supervisor Lawson, Saxon and Gillmore left Wednesday for Island mountain where they will spend a few days hunting and inspecting some proposed work in Supervisor Saxon's district. They left this city fully armed and it is said that one of the members tried to borrow Col Abe Marks' trusty sword so as to be prepared in case of a hand to hand encounter. Supervisor Gillmore was last seen interviewing County Physician Liftchild in regard to the best snake bite remedy. Liftchild advised amonia and Gillmore bought a five cent bottle as he stated that Saxon and Lawson had said that they would each take a bottle of preventative, which according to the old adage is worth several bottles of cure. If nothing happens unforseen there will certainly be an awful mess of dried venison brought in during the next week.

GROCER FOSTER KILLS BIG BUCK

Last Sunday the largest deer of the season was brought into Ukiah by Lindall Foster, of the grocery company of A & A H Foster. Mr Foster and his wife drove out to Pine Ridge early Sunday morning to enjoy a day's outing and incidentally to kill a deer.

The drive out over the mountain road was very enjoyable as they passed along through the forest watching and listening to the birds pluming their feathers for the day. Just after sunrise as the travelers came into an open spot on the ridge, an immense three pointer lifted his head to see who the visitors might be Mr Foster had his rifle ready to use at a moment's warning and so brought down the beauty with one good shot. After dressing the deer, our friends succeeded in getting him into the canon where they hung him in the shade for the day. One deer of that size seemed to be sufficient for one killing so the day was spent in resting and reading with a delicious picnic lunch at noon.

Mr and Mrs Foster came back to town late that evening with the wonderful prize. The deer was found to weigh one hundred and forty-five pounds and had a pair of the most perfect three pointed horns ever seen in town. This is a very good hunting record for an eastern man in California mountains.

OUR CONGRESSMAN IS AGAIN ADVANCED

WASHINGTON, July 24—It is considered practically certain that Congressman McKinlay will be appointed on the merchant marine committee in addition to the insular affairs committee, which committeeship he will retain. The speaker is understood to be moved to make this appointment because of McKinlay's well known friendship toward ship subsidy. There will be a bill introduced at the next session for the encouragement of merchant marine extension between the Pacific coast, Asia and South America. Efforts will be made to put such a bill through.

McKinlay's appointment will give the merchant marine and fisheries committee two members from the coast, Humphrey of Washington already being a member. Humphrey will also probably be appointed on the river and harbors committee. McKinlay, it is understood, was offered a place on the judiciary committee, which he declined after consulting with the others of the California delegation, believing that he could be of more value to California on the insular affairs committee.

POST OFFICE SITE FINALLY SETTLED

It is at last a settled fact that the post office will be moved and that its new location will be permanent for a decade. Frank Albertson acting as agent for Mrs Ed Gambrel received a letter from the department this week accepting the proposition to lease the store room in the McGlashan building at $60 a month for a period of ten years commencing August 1st and stating that Assistant Superintendent Hall of San Francisco is the official who will have supervision of making the change.

Under the new ruling of the department second class offices are located in buildings selected by the government and the landlord furnishes the boxes and office furniture and also the wood, water and lights. Mrs Gambrel is making arrangements for the new boxes and furniture and they will arrive at the earliest possible moment. This means that the post office will soon be equipped with modern boxes and all of the modern conveniences for handling the mails.

The sale of stamps keeps up to the average so far for the year Ukiah will have a city delivery next year. Incidentially it may be mentioned that the businessmen in the southern part of town are rustlers and have now secured the postoffice practically as a permanent fixture.

HORSE SCARES AT AUTO

While Mrs Fred Handy was driving between here and the state hospital last ven ing her horse became frightened of an approaching automobile and overturned the buggy into the ditch near the big bridge. The vehicle was badly damaged, but the occupant escaped with a few slight bruises.

AFTER MOUNTAIN LIONS

The game commission has paid out during the past year $16,000 as bounties on mountain lions. It is estimated that the destruction of these lions has saved over 100,000 deer.

HOP PRICES STILL CLIMBING UPWARD

Frank Albertson reports that there is nothing doing in the line of hop sales this week and no offers are being made as the growers are disposed to hold until after picking. Twenty-one cents is being offered in Santa Rosa but the growers there are refusing to sell for that figure. Ed Howell was offered five cents for his three year old crop this week but did not sell.

J W Eversole left yesterday for Los Angeles to attend the meeting of the funeral directors association. He will visit a number of the other southern cities.

LUMBER SCHOONER LOST NEAR PT ARENA

The steam schooner Winnebago went on the rocks north of the Point Arena lighthouse about 3 o'clock Saturday morning in the heavy fog. She was loaded with 750,000 feet of lumber and 100 piling and as soon as she struck lost her deck load. She raised again and drifted over the first reef her stem sinking and only a small portion of the bow being above water.

In addition to the crew, Captain Treanors wife and four children were aboard. It is said that to her presence of mind is in a measure due to the fact that the entire crew of the vessel were saved, about thirty in all.

Mrs Treanor and the crew made Point Arena safely in the schooner's boats and the boats from the life saving station and took the Sea Foam in the afternoon for San Francisco. Captain Treanor staid at the scene of the wreck in a vain endeavor to save a portion of the cargo. The vessel however is reported to be a total loss. A great deal of lumber drifted ashore along the coast near Point Arena.

The Winnebago went ashore at the same spot as the Shymack, last year. The life saving crew at Point Arena did good work in both cases and have proved their efficiency.

The Winnebago was a steel vessel and had recently been brought around the horn from the east. It is reported that her compass had been working poorly for some time and in the dense fog the inshore currents carried her out of her course and on the rocks.

THE LARGEST OAK BALL

Dr George McCowen was in the office this week and said that he claimed to have the largest oak ball in existence, regardless of what county claimed to have the largest oak tree. The oak ball is 37 inches in circumference. It was picked up by the doctor on one of his rambles and will be preserved as a souvenir.

DEER SEASON NOW CLOSES OCTOBER 1

The board of supervisors made an order shortening the open season for deer one month at their meeting Wednesday morning. The close season will commence this year on October 1st. Lake and Sonoma counties have taken the same action and the deer season will therefore be uniform in these adjoining counties.

Frank McCracken reports that he sold the horses he advertised in the Press to L M Ruddock through the ad. He received enquiries as far south as San Francisco. Press want ads still bring buyers.

PASTOR DICKIE NOW A BENEDICT

Rev Paul R Dickie, pastor of the Presbyterian church of Ukiah and Miss Helene Blackwell of San Jose were married at the First Presbyterian church of San Jose on Monday, July 26. The ceremony was performed by Rev Harmon H McZuilkin. Only a few relatives and nearest friends were present at the ceremony. After the ceremony the happy couple took the train for San Francisco and then went to Mt Tamalpias where they spent a day and arrived at Ukiah Wednesday evening. They will make their home on south Oak street where Rev Dickie has built a fine new cottage.

The bride is the daughter of Mr and Mrs Horace S Blackwell of San Jose and the groom is the popular pastor of the Presbyterian church of this city and has many friends who join with the Press in wishing them a long and happy wedded life.

REMODELING BANK OF UKIAH BUILDING

Work was commenced yesterday tearing away the old wooden buildings and making room for the extension to the Bank of Ukiah premises. Frank A Sullivan of Santa Rosa is the contractor but the work will be done by local people as far as possible. At the rear of the bank will be erected a large directors room to cover the entire lot. The front of the building will be changed and a corner entrance made. The remainder of the front and a large portion of the side of the building will be of plate glass.

The floor will be of tiling and the inside of the building will be generally overhauled and made uptodate. During the renovation the business of the bank will be carried on as usual the management trusting that the new and more commodious quarters will compensate their patrons for any temporary inconveniences that they may suffer.

SURPRISE PARTY AT HOPLAND

Miss Smith of the Foster ranch at Hopland was tendered a surprise party on her birthday last Tuesday night. Dancing and card playing were indulged until midnight when a splendid repast was served. Miss Smith reported that she was sweet sixteen and fancy free. The guests report a fine time and are sorry that the young lady will probably refuse to celebrate anymore birthdays.

HERBERT TYSON SHOT FOR DEER

The open deer season has brought its usual number of cases of mistaken identity where human beings furnished the targets instead of deer.

The case occurring nearest home was of Herbert Tyson, the school teacher. He was out hunting with his brother Fred on Friday of last week near the Halfway house on the Little Lake road. They had separated but both caught sight of the same deer. In order to keep in sight of the deer Herbert ran through the brush for a point of vantage. In so doing Fred caught glimpses of him now and then and believing him to be the buck fired. The yells from his brother soon proved the folly of shooting at something he could nor definitely identify.

The bullet passed through the fleshy part of his left arm but struck no bones. The wound bled profusely at first until a bandage was placed above it and then the flow stopped. The wounded man was taken to the Fort Bragg hospital for treatment.

Herbert was to have opened the Mitchell creek school last Monday.—Mendocino Beacon.
